To whom it may concern!

Rösrath, January 2002
V-Wk/ aq/ Sch.

Dear Sirs,

We have pleasure in enclosing a profile of our company with relevant commercial and technical details.

Our offices and workshop facilities are located in Rösrath, Germany, which is situated between Cologne and Bonn, within ten minutes reach of the airport Cologne/Bonn and fifteen minutes by the highway, to the centre of Cologne.

We employ a total of 75 staff in average. Our workshop capacity allows us to manufacture packaged units up to a unit weight of approx. forty-five tons, and we can provide batch assembly lines for standardized generating sets up to seventy units per month.

We have a generous workshop capacity for the assembly of medium voltage and low voltage switchgears, control panels and distribution panels for industrial application. Our mechanical workshop can manufacture and assemble all related equipment for all applications, in the field of power generation and distribution.

Our Engineering Department is utilizing the latest standard of CAD-equipment and with the support of self-developed software for the processing of turnkey power stations of our production range.

We are able to supply all electrical, mechanical and erection services from one source. This opens considerable advantages to our clients.

We hope that the information given in this Company Profile, detailed in the enclosed sections 1 - 5, is sufficient to illustrate the potential of our company.

We will be pleased to provide further information on your request. Please contact us.

Yours sincerely
LINDENBERG-ANLAGEN GMBH

LINDENBERG-ANLAGEN GMBH

Special Design Stationary Gen-Sets:

- Skid mounted, package-type with weatherproof enclosure
- Containerized gensets, ISO and special design containers
- Sound-proof containers
- Mobile gensets
- Hazardous areas gensets
- MV gensets
- **Gas Gensets**
- **Pump Sets**
- Special Drives

All sets Special Design acc. to Customer's Request.

Turnkey Heavy Fuel, Diesel, Crude Oil & Gas Power Stations:

Total output up to 10 - 15 MW (higher output upon special request)

Engine types at 1000 /
resp. 750 rpm

: MAN B&W
DEUTZ/MWM

Other brands acc. to customer's request.

Switchboards

Low Voltage and Medium Voltage

Manually operated, Automatic Mains Failure, pump control systems, distribution boards.

Engineering and design based on proven experience and laid-out to customer's request.

Marine Auxiliary and Marine Emergency Gen-Sets

Ratings 50 up to 2500 kVA

Engine range M.A.N., DEUTZ/MWM and others.

Built acc. to latest rules of resp. Classification Society, with approved certificate on request.

Combined Heat Production and District Heating Systems for Diesel and Gas engine-driven Gen-Sets

Design and production for the whole LINDENBERG Gen-set range.

Sales of Components

Engines, alternators and components for gen-sets, selected and laid-out as per LINDENBERG-Gen-set-Quality Standard.

Sales of Spare Parts

For engines, alternators, switchboards and components.

Maintenance and After-Sales-Service

Maintenance for the whole range of LINDENBERG-produced Gen-sets and engines.

Maintenance and Overhaul Contracts.

Engineering and Sales of Software

Lay-out of Service and Assembly Workshops for gen-sets.

Lay-out and Design of Workshop's Arrangement for distributors/ agents.

Sales of self-developed Software for order processing of gen-sets and power plants as well as other plants.

Company Background

Summary and Particulars

Foundation

1948 by Karl Lindenberg, engineer, at that time chief designer of large water-cooled Diesel engines at Messrs. Klöckner-Humboldt-Deutz AG, Köln.

Location of Production Plant

Up to summer 1977 at D-5064 Rösrath-Hoffnungsthal, Hauptstr. 180-182, with approx. 600 qm roofed production space. 1978 new construction of administration and production plant at 51503 Rösrath-Kleineichen, Auf der Grefenfurth 25-27. 1983 extension of production area for MV-LV-switchboard manufacturing.

Administration and Production Space

Office and administration	: Approx.	700 qm
Generating sets, locksmith' shop and steel construction	: Approx.	1.950 qm
Mechanical processing	: Approx.	150 qm
Switchboard manufacturing (low-voltage, medium-voltage up to 36 kV, electronic)	: Approx.	1.300 qm
<hr/>		
Total roofed space of administration and production	: Approx.	<u>4.100 qm</u>

Type of Company "GmbH"

Private Limited Liability Company (private property).

Staff

Approx. 75 employees.

Machinery and Production Capacity

Mechanical Workshop : 2,100 m²

Assembling area with cranes for units up to 50 tonnes.

Welding / Machinery Shop

Certified welders
Welding of complete steel structures and base frames;
necessary tools and welding facilities available.

Testing Facilities

Sound-proof test cabin, fully equipped with data processing and measuring equipment for the production range, including pumping sets.

Labour Force

Skilled labours as per German education / training qualification.

Certification

Certified for NATO - AQAP 4 as well as Güteprüfdienst der Bundeswehr.
Third Party Audits as per DIN ISO 9001 requirements.
Certified welders.

Lindenberg-Anlagen GmbH

Lindenberg Power Supply that Fits :

The Company

Production facilities for Generating Sets and Medium and Low Voltage Switchboards and Control Panels in our Rösrath Plant. Special Design Generating Sets – Product Range up to 2500 kVA in Mobile, Weather proof enclosure, sound-proof application.

Our experience at your disposal for our products

Power Stations turn-key from one source including lay-out, Engineering and Design for Mechanical and Electrical Systems, Erection Installation and After Sales Service including Spares and advisory services for operation

Marine Generating Sets for Auxiliary and Emergency Application – Product Range 150 – 1000 kVA
Design, Productions and Supply according to classification rules and certified material including spare parts supply world-wide.

Medium and low voltage Switchboards and Control Systems

Detail Design and Engineering for the electrical systems to be incorporated in at site customer's Requirements other services and systems
Total energy systems to optimise certain efficiency of the Power Plant, After Sales Services, Advisory and Consultancy Services for Lay-out and Operation.

Special Design Generating Sets – Product Range up to 2500 kVA in Mobile, Weather proof enclosure, sound-proof application
